

XXXX PDF (generated from LibreOffice 5.1.4.2) demonstrates some text that can be redacted.

XXXX are some fake SSNs

**522-30-0388 002-30-2375 417-09-1520 473-58-0972**

And some more with common OCR character substitutions:

**256-08-8733 494-I9-32l6 221—64-0923 5o7-22~3536 298-66-687i**

**XXXX's an ✕ character in both fonts so that substitution works.**

XXXX is a link:

**link to issue #13**
